Career Transition — Self-taught Game Designer

☆ About me

Self-taught game designer with a background in Visual Design (Print-on-Demand) and Logistics. Currently building my portfolio through personal game projects — applying skills in narrative design, systems design, and game analysis.

Certifications

Introduction to Game Design

Epic Games — Coursera

Completed 2025

Fundamentals of Level Design with Unreal Engine

Epic Games — Coursera

Completed 2025

Background

Self-Study — Game Design

Independent · 2023 – Present

Completed two Coursera game design certifications. Built personal game projects: The Slices (narrative thriller), Empire (political strategy), Farm (simulation hybrid). Applied knowledge across systems design, GDD writing, and game analysis.

Visual Designer — Print on Demand

Freelance / Agency · 2021 – Present

Designed product visuals and brand assets for e-commerce businesses.

Logistics Coordinator

Previous Career · Before 2021

Operations and supply-chain coordination. Developed analytical problem-solving and process optimization skills — now applied to game economy and progression system design.
